

Savvy Traveller Lift Share Project - Arran Medical Group and Arran War Memorial Hospital

Hello and welcome to the Savvy Traveller Lift Share project in conjunction with Arran Medical Group.

The main purpose of this survey is to find out from local people how best to organise a lift share scheme for users of the various medical services on Arran.

You might be interested in using a lift share scheme to get to or from appointments either on a regular or one-off basis.

Or you might have a car and some free time to volunteer to drive patients who, for various reasons, are unable to use public transport to get to their appointments.

We would greatly appreciate as many insights, suggestions and concerns as you can muster, we intend on shaping the future direction of the project around local community's needs and wants.

Thank you for participating, with your help we hope to make Arran a more sustainable and happy place to live.
